Course Description for Research and Training 2025–2026

Course Description Form

1. Course name
Research and Training
2. Course code
WLW-40-010
3. semester/year
2026-2025/
4. Description preparation date
2025/9/1
5. Available attendance forms
In-person - Annual
6. Number of study hours (total) / Number of units (total)
one unit 30 hours
7. Course supervisor name if more than one name is mentioned
the name
Phone number
Email

Course description

This course description provides a summary of the most important characteristics of the course and the learning outcomes that the student is expected to achieve, demonstrating whether he or she has made the most of the learning opportunities available. It must be linked to the program .description

1. Course objectives

- Developing students' scientific research skills, including topic selection, problem formulation, and research proposal design.
- Training students to apply appropriate scientific research methodologies and to analyze sources and references with objectivity and precision.
- Equipping students with the ability to apply proper academic documentation, in accordance with recognized scholarly standards.

- Enhancing critical thinking, analytical, and inferential skills in addressing scholarly issues.
- Linking theoretical knowledge with practical application through the preparation of research papers or training reports.
- Preparing students to adhere to research ethics and academic integrity.
- Developing presentation, discussion, and academic report-writing skills, using clear language and a sound methodological structure.
- Preparing students for advanced stages of study or for professional and research-oriented careers.
